

Let's make some art with bubbles!

What you need:

- Paper
- Bubble solution (can make it with water + dish soap)
- Small bowls to hold bubble solution
- Paint or food coloring
- Bubble wand, straw, or circular item that can replicate a bubble wand

What to do:

1. Pour some bubble solution into each small bowl.
2. Add a different color of paint/food coloring to each bowl.
3. Dip your wand into the color you want to use.
4. Carefully hold it over your paper and blow some bubbles!
5. If the bubbles are still intact on your paper, give them a tap and they will pop!
6. Make all the colorful patterns you want to!
