Instructions:

1. Look for a flat, smooth stone near the water.
2. Hold the stone between your thumb and middle finger.
3. Hook your index finger around the edge of the rock.
4. Face the water at a slight angle with your arm low to the ground.
5. Bring your arm and wrist behind you.
6. Throw your arm out in front of you and release the rock when it's in front of your body.

- **Hint: It's all in the flick of the wrist like throwing a frisbee**
